## Changes In Proposed Federal Grain Board

The set up of the Canada Grain Board is somewhat different to that originally contemplated by the Dominion Government. The decision of the parliamentary committee appointed to consider the matter is that a minimum price for wheat will be fixed, and any wheat grower who so desires may dispose of his wheat to the board, receiving therefore the minimum price and a non-negotiable confirmation which entitles him to importation to say further monies above the minimum price, received for the sale of the wheat.

The farmer has the alternative method of marketing through the ordinary channels when the total price obtainable is paid at the time of the transaction. The Winnipeg Grain Exchange will operate as usual, subject, of course, to the influence of the minimum price. The board will take over the 225 million bushels of the McFarland holdings and dispose of it as demand arises. The minimum price will be set at Aug. 1, or thereabouts, the commencement of the new crop year.

The board's appointment is permanent until eliminated by act of parliament, and it will have power to make investigations into the operations of the Winnipeg Grain Exchange when it may be deemed necessary.

More than any other country in the world, we (British) are the guardians and trustees for democracy, for freedom and for ordered liberty. We want liberty for our own people and abroad.—Stanley Baldwin.

## ALBERTA

## Schools of Agriculture

OLDS and VERMILION

1935-36 Term Opens October 22, 1935

Established 21 years ago, these schools have provided free tuition in Agriculture and some Economics to more than 8,000 boys and girls. No fees or costs are demanded. Age no limit—any age from 12 years and over. Academic requirement none save ability to undertake and profit from the courses. Room and board provided in modern dormitories at reasonable rates. Term is five months.

Write for Calendar and other information to Principal of either school or to—

Alberta Department of Agriculture

HON. F. S. GRISDALE,  
Minister of Agriculture

H. A. CRAIG,  
Deputy Minister and  
Superintendent of Schools.

## Summer Vacations

Get the full enjoyment of the season by using our sunburn lotions and other toilet and cosmetic necessities. We are pleased to give you every help and advice. Take your Kodak. Photographic Supplies, Developing. Let us know your wants. We are at your service.

**EMPRESS DRUG CO., Ltd.**

We are agents for leading nurseries. Cut Flowers ordered on shortest possible notice.

## Wedding

Heard-Brunner

In the Cathedral of the Holy Rosary, Vancouver, on Wednesday, July 3rd, 1935, the marriage was solemnized by the Rev. Father L. O. Bourrie, of Margaret, eldest daughter of Mr. and Mrs. J. Brunner, of Empress, Alberta, and Ronald, son of Mr. and Mrs. H. J. Heard, Tandridge Wells, Eng. Mr. and Mrs. Ronald Heard will make their home at Nanaimo, V.I.

## Federal Parliament Prorogues

Ottawa—Canada's seventh parliament officially ended its duties with prorogation Friday afternoon, and officially passed into history with only official dissolution needed to finally snuff out its life later in the summer.

Members trekked homeward after an arduous and contentious session. Government members learned definitely that Mr. Bennett will be their leader throughout the coming election campaign after meeting in caucus with Mr. Bennett shortly after nine o'clock on Friday morning.

Mr. Bennett is taking a holiday, and is expected to return to Ottawa late in July, then publicly announce the date of the election, and the set-up of a revised cabinet. It is expected that men replacing retiring ministers will be considerably younger men.

Since proroguing another bill has appeared for consideration of electors in the coming federal election battle, that is the announcement by the Hon. H. S. Stevens that he will head a new party, and that candidates are expected to be placed in every constituency.

The name of the party and the platform policies on which it will appeal to the electors have yet to be announced. Pending

more information, the extent to which the new party may affect the coming election is at this time questionable, but is sure to affect the campaign policies of the Conservatives and Liberals and possibly the C.U.F.

## Allan B. VanCleave Given Distinctive Award

Former Empress High School Boy Gets Science Scholarship for \$1250

Friends of Mr. and Mrs. Harry Ferguson will be pleased at the signal honour that has been achieved by the latter's son, Allan Bishop Van Cleave. A graduate of McGill University, announcement was made in a Montreal despatch, that he has been awarded one of the science research scholarships offered by the royal commissioners of 1851 London. The award is valued at approximately \$1250 per year, and is tenable for two and possibly three years.

Born in Medicine Hat, Alta., Mr. Van Cleave was for a time a student of the high school in Empress and entered Saskatchewan University in 1927 with other high school students from here. He received his master of science degree in 1933. He continued his study of chemistry at McGill and graduated with the degree of doctor of philosophy this year.

Whilst at the University of Saskatchewan he was a demonstrator in chemistry for two years. He was also chemistry demonstrator at McGill. He will leave for England next fall to study at King's College, London university, under Dr. A. J. Almond.

Mr. and Mrs. J. H. Ferguson have the cross bar ranch north of Estuary, and their home is north of Estuary.

## Met Many Former Residents

Mr. and Mrs. N. D. Storey, arrived back on Monday, from an extensive auto trip through eastern Canada and parts of the United States, and report a very interesting and instructive trip. They met a number of former Empress residents with whom they spent considerable time and who wished to be remembered to old friends.

They all good will, they say.

Mr. and Mrs. L. Northcott, timber keeper, Wm. Pawshak, Lou McPhee, Frederick Blodgett, all on construction Inc., Dick Johnson, druggist, all employed by the Universal Coder Co., Detroit, Douglas Mann, Sup't of G. and W. Blodgett Co., Detroit. Mr. and Mrs. V. Stocks, of Tilsonburg, Ont. R. M. Henderson and family, of Hamilton, Ont. Dr. Eager, of Hamilton Ont.

While in Detroit, Mr. and Mrs. Storey, spent a week visiting with Mr. and Mrs. Blodgett. All will remember Mr. Blodgett, a gent's clothing store here and was Secretary of the Empress Cottage Hospital. Uncle Blodgett has charge of a Municipal Golf Links at Deerborn. Howard Blodgett has recently graduated from high school. They all wish to be remembered to Empress friends.

Rev. and Mrs. J. S. Parke arrived back on Sunday from a holiday vacation.

A number of the girls from town, left by car on Wednesday for Clark's lake, where they will enjoy a camping holiday of a week's duration. The camp is held under the direction of the Anglican church. Rev. and Mrs. J. S. Parke and her sister accompanied them.

## Public School Report

Grade V.:

Gordon Hopkins, 84

Peter Orsolo, 80.5

P. E. Tarr, teacher.

## Empress Win From Estuary

The Estuary ball team were visitors to Empress on Friday last and lost-cut in the final leadings by a score of 3-2. The game, as the score denotes, was an interesting one until the scoring of the winning run.

Geo. Turner arrived back this week from Battleford with a truck load of furniture. His son, John, and daughters, Kathleen and Mrs. J. Campbell, and daughter.

## Sale and Redemption of Impounded Animals

Notice is hereby given under Section 10 of the Provincial Game Act (1933) that One aged Sow Mare, white stripes face, grey over eyes, 1000 lbs. live weight, appears to be

on left shoulder and 4 on right shoulder and is impounded in the pound kept by Fred Pope, of Haven, Alta., located on the N.E. 1/4, 9-29-3 with, on arrival, the said animal was in a state of emaciation, the said animal was sold on the 28th day of June, 1933, to C. A. Smith, of Haven, Alta.

and that the said animal may be redeemed by the owner or his agent within a period of thirty days from the publication of this notice in the Alberta Gazette, upon payment of the amount of the impoundment and the purchase of said animal.

For information apply to the undersigned.

D. M. GRAHAM,

Sec'y. of the Municipality of

Acadia Valley, Alta.

## Bindloss News

Mrs. O. Fieldberg is spending a few days with her daughter, Mrs. C. Lorentson, of Vandyne.

Mrs. Madeline Jackson, of Estuary, is spending her holidays with her sister, Mrs. N. Davies.

Mr. N. Dalbach, accompanied by his daughters, Misses Ingrid and Annie, are visiting relatives near Edmonton, Alta.

Mrs. Margaret Larson, who has been attending school at Rockyford, Alta., has returned to her home here.

The Pioneer elevator has reopened for business, Mr. Ogilvie of Leader, being in charge.

Mr. J. N. Anderson, of Empress, was in town during the week.

Mr. and Mrs. Leonard Hughes, who have been spending the past week at the home of Mr. Hughes parents, left on Sunday for Cereal, where they will spend a few days with Mr. and Mrs. Lloyd Kidd, before returning to their home in Edmonton.

Crop Conditions in Alberta

Alberta is well supplied with moisture save for areas in the south and south-eastern portion of the province. In the Lethbridge district the rainfall in June was 35 parts of an inch, the smallest since 1920.

As a result the crop is later particularly in the southern areas—cool weather has been the exception. The harvest will be delayed considerably.

There is prospects of an average crop but not a large one, by any means. Early frost this season would do a vast amount of damage.—Wheat Pool Budget.

## St. Mary's Anglican Church

Acadia Valley: Holy Communion, 11:00 a.m.

Cavendish: Evensong, 2:00 p.m.

• Leland: Evensong, 4:30 p.m.

Empress: Evensong, 7:30 p.m.

Rev. J. S. Parke, Vicar.

Field Day on Monday, July 15, at J. Barnes'

Monday, July 15, will be Field Day at the Illustration Station on the farm of John Barnes, at 2 o'clock.

Officials of the Experimental Farm and Entomological Branch will take part in the programme.

## Vagaries of Rainfall

During the past week, hopes of the majority of the farmers in this district have been considerably brightened by some heavy showers of rain. In town the precipitation was given as 80 of an inch. However, the rainfall has varied some parts receiving much more and others considerably less, out towards Acadia Valley and west at Buffalo, rainfall has been practically nil. East of the prairie precipitation has been particularly heavy in places and hail damage is reported at some points along the line. Last Saturday a gale wind and damage at Oyen, the storm was accompanied by hail and rain. At various points in Saskatchewan damage from hail is said to have been heavy, while cyclonic winds have created destruction in various places.

## FIELD DAY

At the Illustration Station on the Farm of J. BARNES, at Bindloss, on

Monday, July 15, at 2 o'clock

Officials of the Experimental Farm and Entomological Branch will take part in the programme

You are cordially invited to attend.

Vacation Days

That happy period in childhood, the mid-summer school holidays, is near at hand. With shouts of joy, laughter, and on running feet the boys and girls of Canada will announce to all the world "School's out," and they will be free.

In these later days much is heard of vacation periods, hours, more leisure for the workers of the world, and all kinds of proposals are advanced as to how these leisure hours may be spent in order that they may prove a blessing rather than a drawback in the development of a better type of citizen; in order that they may add to the pleasure and true enjoyment of life rather than tend towards pure idleness and even shiftlessness.

Months of absolute freedom from school for their children, are what are Canadian parents asking for now. These boys and girls, to keep them out of mischief and to make this vacation time freed from schoolly beneficial and an asset which will prove of value in better health, clearer minds, and a most wholesome outlook on life,—in a word, prepare these citizens of the future to return to the school rooms some weeks hence for another period of study and preparation for life?

And so the months of absolute freedom from school for their children, conferences and assemblies have been held, classes graduation from hospitals are completed, examinations of all kinds are nearing an end, teachers, too, will be free of their duties, spring work on the farm is past, and in town and city the quiet time in business is at hand. Thus the older generation is able to devote more time and more thought to making these happy days a childhood a real joy and blessing not only to the children, but to themselves.

And so the question arises, and ought to be faced, what can we do individually and collectively to make the summer vacation of 1935 a never-to-be-forgotten period in the lives and memories of Canada's boys and girls—your own boys and girls? It is a responsibility to be discharged, just as it is a pleasure to be derived by those who discharge the responsibility. And this responsibility is a heavy one, but the time is short, and the unoccupied pleasure for children should not be neglected in this year especially, following as it does, so many years of economic depression and, for many in this western country, disastrous crop failures and business reverses.

Fortunately, it does not cost much in money to give children a good time, a happy holiday. Fortunately, again, Canada is blessed by Nature with almost innumerable beauty spots for holiday purposes. There is not a province in Canada where there is not a great deal of room, space, and room for resorting. Camping grounds are numerous places to camp, and plenty are to be found in easily accessible places. Full advantages should be taken of these to provide outings for the boys and girls, even though individual circumstances may make such outings of brief duration.

In circumstances like these, especially Canada is a land fit for outdoor sports. Get the boys and girls out and about, not only in the open air, but in the open air. They are in school and shut up in houses in the winter time for long months of the year; they need the health-giving properties of the sun throughout the summer holiday season, the clean, invigorating fresh air, the delights of forest and lake. Get them as close as possible to Nature in her happy ways, and make the most of every opportunity for emergencies that may arise in their own lives or in the lives of others.

Unconsciously, too, the work of the school room can be carried forward. Powers of observation can be developed and strengthened during vacation days spent in the open; habits of cleanliness, neatness, orderliness can be made a part of camp and holiday life, and accepted as part of the time which will be given in good stead in future years; initiative, love to handicrafts, resort to simple invention to meet the lack of usual equipment at home—all these things mean a greater all-round development of character.

An elaborately organized holiday is not necessary, neither should much expense be incurred in making a change, although it for a while. They will enjoy it just as much, perhaps more, if it is a simple, quiet outing where everything is planned and arranged for them. To a large extent, the boys and girls should do a full share of the camp or holiday work. Properly organized and time systematically divided between these duties and the hours of play, boys and girls will enjoy and benefit from doing the camp chores.

Others may prefer the motor car occasionally, and spend a day on a hike. Older lads know the delights and benefits of a walking tour, or a day's hike, which Canadians have not learned to appreciate. Try one this year with your older boys and girls.

Think up other things and ways in which this holiday season can be made happy, useful and useful. Vacation days present an opportunity to get closer to your children than is possible in the busier days of the year; it is an opportunity for you to study them; ascertain their weaknesses or strength; gain their confidence in larger measure; learn of their ambitions and as a result be in a better position to mold their characters along right lines, and check tendencies and habits, hitherto un-noted by you, which would prove a handicap to them, and a possible source of future worry and sorrow to yourself as well as to them.

**Problem For Astronomers**  
Mars, where weather extremes are almost an hourly matter in life, has given oxygen to the imagination of man, and presented a new problem to the astronomers of this world by producing what seems to be snow out of season.

Pupils in the middle grade of schools in China have been ordered to take military training.

The wife of a small farmer sold her surplus butter to a grocer in a small town. On one occasion the grocer said, "Your butter was under weight last week."

"Now, fancy that," said Mrs. Farmer. "Baby mislaid my weight that day, so I just used the pound of sugar you sold me."

Nearly every military term is French.

## Lloyd's Insure Vimy Pilgrimage Stress Necessity Of Making Early Bookings

The Canadian Legion announced to-day that Lloyd's of London, England, have insured the Vimy Pilgrimage, to be held in July of next year, against abandonment in the event of war, financial panic or other untoward events.

Bookings are pouring into the steamship companies. Hope is expressed by Legion officials that service men realize the necessity of registering early in order to be certain of accommodation.

"It is difficult to impress a veteran with the idea of making a ten dollar deposit now when he knows he can pay the same amount in three months when the time comes," said Capt. Ben Allen, Dominion organizer, to the press to-day. "Early bookings are necessary, however, so that we can get enough ships to take care of the veterans."

"And pilgrims only are going to be allowed to sail in this Peace Armada. Also we must arrange early for billeting accommodation and rail and motor transportation in France. The naval, military and medical authorities are extending us every co-operation. It looks like Canada's year in Europe next year."

## Held Up By Robin

### Nesting Bird Delays Altering Of Hugo C.N.R. Sign

Plans to alter a huge electric sign fronting the Canadian National station in Winnipeg were thwarted out of consideration for a mother robin whose nest is attached to the letter "H."

Wording of a new sign designed to replace the old had been carefully worked out. Electricians were summoned and all was in readiness to flash on the new sign when the bird was discovered. Then office workers who had seen the bird sitting on her four eggs reported to officials, and it was decided, excursions or no excursions, Mrs. Robin must not be disturbed.

Meticulous efforts were being made to work out a sign which would leave the "H" in its present position.

## Lasted Life-Saving Net

### Device For Use At Sea Was Successfully Tested

An ingenious life-saving net which experts state will minimize perils of the sea has been demonstrated at sea.

The invention is a raft consisting of tubular cork bags made into a net lashed with rope. It is produced by hand.

It can be unrolled down a ship's side to serve as a ladder, or floated alongside foundering or burning vessels in conditions which would make the launching of an ordinary life-boat impossible.

Orders have been received from liner and "tramp" firms. The device is expected to form the basis of a new industry.

## Marriage in Filmland

### Canadian Bronco Buster Reported To Have Wed Daughter Of Tom Mix

Ruth Mix, daughter of Tom Mix, and Ruthie, champion bronco buster, eloped to Reno, Nev., where they were married, said a telegram from Tex Austin, promoter of cowboys contests.

"We tied the knot to-day," read the message.

Miss Mix, whose father is a famous cowboy role on the screen, the son of a wealthy rancher, was married to Douglas Glanore, an actor. Their marriage was announced at Middleton, N.Y., in July, 1932.

Knights' home is at Banff, Alta.

## New Story For Ripley

Here's one for Ripley: "Believe It Or Not," but it's a fact anyway. A.W. Youngblut, of Oxford County, Ont., found a large number of insects in his garden that had started to sprout. Nothing unusual in that, but the sprout had turned around and gone into the potato again near the surface, coming out at the other end, extending for about two inches.

## A Full-Time Job

What are the functions of a lieutenant-governor? says a constitutional lawyer from Manitoba, says the Winnipeg Tribune. He is asked daily, Sundays included, somewhere around 8 a.m., and last frequently until the clock turns to a.m. of the following day. Not more than a thousand words, one or two, and another hour, their duty to the governor as a prospective guest at one or more events.

## Butterfly Hunter

### Man To Travel 4,000 Miles To Pursue Life-Long Hobby

At the age of 73 Walter Danatt, a retired lumberman from London, will leave shortly to travel the thousand miles up the Amazon in pursuit of his lifelong hobby of butterfly collecting.

Mr. Danatt has a remarkable collection of butterflies and moths, numbering more than 18,000, and hopes to add to it considerably as he explores his new venture.

"I keep fit by cycling," Mr. Danatt said. "I cycled the same distance for 30 years, and have traveled more than 150,000 miles on it. One week-end I covered more than a hundred miles."

"Before I bought my present machine I had the first safety bicycle in Canada," he said. "I am still using it."

On the subject of his hobby, Mr. Danatt said: "Some of my specimens come from as far as the Solomon Islands. The collector who secured them was repeatedly driven off by cannibals in attempting to land. He at last succeeded by brandishing a revolver."

## Boosting Bay Route

### First Voyage To Be Underwritten For 1935 Season Is In Aid Of Research Of The Daphne Fish

Announcing the Ashworth of the Daphne fish is the first vessel to be chartered for the 1935 season, Brig.-Gen. George Patterson, of the Royal Canadian Air Force, said yesterday.

More ships would visit Churchill,

Manitoba's northern seaport, this season, he said, any number of vessels, General Patterson said.

Judging from the numerous inquiries received from persons in different countries, General Patterson said many tourists would visit the Hudson Bay region exports over the Hudson Bay route.

More ships would visit Churchill, Manitoba's northern seaport, this season, he said, any number of vessels, General Patterson said.

Then office workers who had seen the bird sitting on her four eggs reported to officials, and it was decided, excursions or no excursions, Mrs. Robin must not be disturbed.

Meticulous efforts were being made to work out a sign which would leave the "H" in its present position.

## Little Journeys In Science

### BROMINE

By Gordon H. Guest, M.A.

Bromine was discovered in 1826 by the French scientist

Balard. The element occurs in nature as bromides, chiefly as magnesium bromide.

There are many springs and wells, which are found in many springs and salt deserts.

The Stassfurt deposit is the largest in the world.

Both the waters of the Great Lakes and the waters of Michigan and Ohio are rich in bromides. Sea water also contains small amounts of bromine.

Bromine is prepared commercially by the electrolysis of a solution of a bromide or by treating solutions of bromine with strong acids.

In recent years bromine has increased in use in the preparation of a compound called ethylene bromide. This compound is a constituent of gasoline.

It is used in the manufacture of

dame Alice Brooks declares that accessories should match. In line with this idea, she has never yet suggested offer matching hats and purses, which can be crocheted to match your coat.

She also suggests that you wear matching hats and purses with matching skirts, sweater coats for day wear, and matching coats for evening wear.

She also suggests that you wear matching hats and purses with matching skirts, sweater coats for day wear, and matching coats for evening wear.

Miss Brooks, creator of this series, also will provide designs for the new ladies' hats and quilted patterns in such lovely designs as Spring Fancy, Cleopatra Fan, Rainbow Square, and Springtime.

She will make your table fit for a king, tea towels to dress up your kitchen, and curtains to make your home beautiful is included.

Alice Brooks patterns are clean, clear, and easy to follow.

She also provides designs for the completion of satisfying work.

# Prorogation Of House May Not Come Before First Of July

Ottawa.—Much of the reform legislation, a half dozen bills arising from the report of the price spread commission and other government and private measures, many of them of highest importance, crowd the order paper. Parliament enters its sixth month Monday. Prorogation before July 1, which had been strongly forecast, would require extraordinary speed in the despatch of business.

Up to the present, however, there has been time to lengthen the daily sessions or to disregard the Wednesday evening and Saturday recess.

Last week witnessed probably the most sensational passages in the House of Commons since the session opened, as Prime Minister W. B. Bennett, apparently fully recovered from his illness, delivering two speeches with all his old-time fire and eloquence.

To clinch the week's activities came the bill amending the Dominion Elections Act, inaugurating the

single alternative voting system for federal elections in the province of Saskatchewan alone.

Introduction of this bill by Hon. Hugh Guthrie, minister of justice, apparently a complete surprise to everyone, brought a storm of protest from the Liberal opposition, who "won't get away with that," and "We'll be here all summer," greeted the minister's brief explanation of the bill.

A advance of \$500,000 to Saskatchewan was made on recommendation of the Dominion government's representative in that province who will countersign all cheques used in its disbursements. It is for drought relief.

The \$218,000 to Manitoba is a further loan to enable that province to meet its share of relief costs. Both loans are secured by temporary bills bearing interest at 4½ per cent. until July 1, 1935, and thereafter at four per cent.

## Loans To Provinces

### Money Is Advanced For Unemployment And Drought Relief

Ottawa.—Loans of \$500,000 to Saskatchewan and \$218,000 to Manitoba were announced at the office of Finance Minister Hon. Hugh Guthrie for unemployment and drought relief.

Advance of \$500,000 to Saskatchewan was made on recommendation of the Dominion government's representative in that province who will countersign all cheques used in its disbursements. It is for drought relief.

The \$218,000 to Manitoba is a further loan to enable that province to meet its share of relief costs. Both loans are secured by temporary bills bearing interest at 4½ per cent. until July 1, 1935, and thereafter at four per cent.

### Prepare For Inflation

#### Roger Babson Says United States Should Expect It To Come

Boston.—Roger W. Babson, widely known statistician, warned United States business men to prepare for inflation.

"Just worrying, forget Washington. Prepare for inflation," he said in a speech prepared for delivery at a local chamber of commerce luncheon.

"Inflation of some kind surely is coming," he said.

### To Find Remedy

#### Difficulties Of Unemployment Among Ex-Servicemen To Be Received Attenen

Ottawa.—That members of parliament will, by means of a committee, take steps to remedy the most outstanding difficulties of unemployment among ex-service men at the present session is expressed in a circular letter sent out to the Canadian Legion by the Dominion government. The letter further urged proper provision might thus be made for the development of plans with a view to early action next session by a parliamentary committee.

#### Quebec Lumber

Montreal.—The Quebec forest commission is determined to increase export of Quebec lumber, L. A. Daigle, chairman of the committee, said yesterday. Mr. Daigle said the commission is handicapped by "certain influences which militate against a more general use of Quebec timber."

#### B.C. Road Work Planned

Victoria.—The British Columbia government will provide \$1,500,000 for road work in the province and another \$1,500,000 for highway work to the establishment of Japanese influence in Hope province, said a Rengo (Japanese) news agency from Peking.

**A NEW BRITISH MOVEMENT FOR CAUSE OF PEACE**

London.—A non-partisan movement designed to secure adherence of candidates of all political parties at the forthcoming general elections to the cause of peace and reconstruction.

A council of action, formed from a ranks of religious, social and political organizations, and supported by noted figures including David Lloyd George, Viscount Snowden, the Earl of Birkenhead, a section of the Bank of England, made its plans known in a manifesto. Signed by 33 prominent men and women who form the organization, the manifesto urges that all organizations sympathetic to the new movement to send delegations to a two-day conference to be held in London in July, at which a nation-wide campaign will be launched.

The manifesto stressed the objective of a council of action was not a negative one of opposition to the government, nor was it intended to support either of the two opposition parties. It said that the council would support the election of candidates in all parties so that in the next House of Commons a considerable section would favor "bold reconstructions both in the foreign and domestic fields."

PIERRE LAVAL

With a nation-wide investigation of the worth of speculation that threatened the stability of the franc already under way, the government of Laval has begun its task of dealing with France's financial crisis.

### Chaco War Ended

#### Peace Protocol Between Two Nations Is Signed

Buenos Aires.—War between Bolivia and Paraguay in the Gran Chaco junction area was ended, with the signing of the peace protocol between the two nations.

The protocol was formally signed by the two countries' foreign ministers in the presence of delegates from Argentina, Brazil, Chile, Peru, Uruguay and the United States to the conference here for mediation.

A neutral military commission will go at once to the front and interview the combatants on both sides.

Following the exact position occupied by their respective forces at the signing of the armistice, though the protocol provided firing must within 48 hours, it was reported both combatants called off hostilities.

To arrive as soon as possible in the jungle area between the Ilo, Mayo and Paraguay rivers, where 100,000 Paraguayan and Bolivian soldiers have died in the three-year warfare, the commission will travel by plane.

**Show Big Decrease**

#### Bureau Of Statistics Issues Figures On Wheat Exports

Ottawa.—Canadian wheat in store for the week ended June 7 amounted to 209,353,758 bushels, a decrease of 1,189,638 bushels compared with the preceding week, and a decrease of 10,260,258 bushels against the same week last year.

Canadian wheat in the United States amounted to 9,603,316 bushels,

an increase of 232,613 bushels over the preceding week, and an increase of 2,900,252 bushels against the corresponding week last year.

United States wheat in Canada was shown as 200,294 bushels for the week ended June 7, compared with 148,597 bushels on the same date last year.

Wheat in transit on the lakes was reported as 2,900,258 bushels, compared with 1,483,997 bushels for the preceding week.

#### Gets Curtain Call

#### Grace Moore Scores A Sensation

London.—Grace Moore scored a sensation as Mimi in La Boheme before Queen Mary and a glittering audience of London's society.

She took 15 curtain calls after the final act, which was believed a modern record for historic Covent Garden hall.

The queen started to leave after the curtain call but came back and applauded the United States singer for the third time. As Miss Moore curtsied low, the queen bowed and smiled at her.

**New Minister Arrives**

New York.—Satomatsu Kato, newly appointed Japanese minister to Canada, and his wife, arrived in New York aboard the liner Majestic. Mr. and Mrs. Kato came to America by air. The Japanese envoy from Japan for a number of years has been in his country's consular service at London and previous to that at Washington.

At the time the women took their courage in their hands and did the job and cared nothing about what anyone thinks." Miss Macphail said she had been the only woman member of the commons for 13 years.

# Reject Bill To Amend Industrial Disputes Investigation Act

Ottawa.—The senate banking and commerce committee rejected the bill to amend the Industrial Disputes Investigation Act arising out of the report of the price spreads commission.

Motion for rejection of the measure was carried without division. It set out that "the committee report the bill to amend with a recommendation that it be referred further provided for with the result that in the opinion of the committee its passage would not in the public interest and would interfere with the spirit and purpose of the Industrial Disputes Investigation Act which is to prevent by conciliatory methods industrial disputes or branch of the peace."

Rt. Hon. Arthur Meighen, senate leader, said in debate with President Frank J. Thompson, of the Trades and Labor Congress, that "there is nothing in this bill worth saving."

The measure, Mr. Meighen said, attempted to provide even where the committee had not done so, or led him to believe the minister of labor might appoint a board of conciliation on complaint of an individual employer or worker of intimidation or discrimination.

There was to try to effect a settlement of a dispute that character "not of a dispute threatening a strike or lockout but more probably a difficulty between one section of labor and another or between one employer and another."

In effect, the amendment proposed

bills might be set up to deal with disputes more or less of a local or domestic character, within the realm of provincial jurisdiction over civil rights.

The committee felt "he continued, "that to invite a reference of disputes of that kind to a minister and thus to impose on him almost a direction to appoint a board, unless he give adequate reasons to the contrary, would be to impose on him an unnecessary burden, but would place a weapon in the hands of an employer desirous of preventing what he regarded as discriminatory practices on the part of workers who had been discriminated against by a labor organization." Aside from the constitutional feature, it was felt unusual for parliament to invade such a field.

Establishment of boards "is these instances would be entirely foreign to dominion jurisdiction under the British North America Act, the committee considered. The power of the minister to secure witnesses, or restrain interference or deal with parties who refused to testify was doubtful.

Committee members had not taken into view the condition of danger existing in the matter of wage proceeding no further with the bill. We considered on its merits it was an unwise and unnecessary measure."

The present act gave ample provisions where there was reason for the labor dispute, exerting its efforts towards conciliation.

#### AUSTRALIAN EXPLORER SAILS FOR HOLIDAY

This happy informal photograph shows Sir Hubert Wilkins, famous explorer, and his wife, aboard a liner bound for the continent. The Polar explorer and Lady Wilkins are on a holiday jaunt around European capitals.

# Anglo-German Naval Agreement Said To Have Been Reached

### To Unite Family

#### Dr. Dafe Predicts Quintuplets Will Return Home Within Few Years

Atlantic City, N.J.—To several hundred members of the Canadian and American Medical Association physicians who expressed particular interest in the mother of the Dionne quintuplets, Dr. Allan Roy Dafe predicted that they will return to their mother and union of the entire family "in three or four years."

To newspapermen who questioned him afterward Dr. Dafe said: "There is no definite plan, but this is the hope."

Dr. Dafe spoke at a women's luncheon and offered to answer questions.

"How will the influence of the mother be supplied in raising the quintuplets?" one of the women asked.

"Mrs. Dionne," Dr. Dafe replied, "is permitted to see the quintuplets whenever she wishes. She may wash and do cleaning, too."

"It is important as soon as possible to have them their care for them, and in three or four years to have all 10 children together and the family under one roof."

Dr. Dafe's speech was to rectify the daily routine of the quintuplets.

London.—An Anglo-German agreement establishing terms of relative strengths of their navies was almost ready to be signed and observers here hailed it as an important step toward European peace.

Johannes Von Ribbentrop, Adolf Hitler's chief of staff, came yesterday, brought back to London. Reichsführer Hitler's affirmative reply to all of Britain's conditions for the agreement. Terms of the pact were quickly decided.

Unofficial quarters said it will involve:

1. Germany's pledge to limit her navy to 35 per cent. of Britain's tonnage.

2. Germany's acceptance of limitation by categories of ships, as well as by total tonnage.

3. A release clause to protect Germany if other powers launch unrestricted construction of smaller warships and submarines.

### Anti-Aircraft Defence

#### Battalions To Be Created To Guard London

London.—The war office, in a surprise announcement, stated eight battalions will be created immediately to form an anti-aircraft defence force.

The announcement said five units will be transformed into searchlight battalions and the other three, including the famed Royal Fusiliers, will become anti-aircraft brigades of Royal Artillery.

Making what the Herald described as "this grave announcement," the war office stressed the necessity the new force be "ready for action immediately on the outbreak of war or even earlier."

The new units, it was understood, will operate on a war-time basis. Only the London area is provided for in this new step.

### Should Use Franchise

#### Agnes Macphail Urges Women To Enter Politics

Toronto.—Miss Agnes Macphail challenged the National Council of Women, addressing the council's annual meeting here, to use their franchise and what privileges they possessed.

"How long am I to be the only woman member of the House of Commons?" she asked. "It is time, I think, we ready care about the franchise that got into the work. You can get into the House of Commons when you're a friend of the people of constituency if you want to."

For the first time the women took their courage in their hands and did the job and cared nothing about what anyone thinks." Miss Macphail said she had been the only woman member of the commons for 13 years.

# Wheat Situation Is Called The Greatest Problem Of Canada

Ottawa.—Prime Minister R. B. Bennett called the wheat situation Canada's greatest problem when, in the House, he moved second reading of the grain production bill.

Although not the world's largest producer, Canada is the largest exporter and the size and quality of the crop has a great effect on Canada's crop, Mr. Bennett explained.

There was no solution of the country not affected by wheat prices, drought, windstorms and fair weather on the prairies. Because of that, Canada was more interested than any other in a moderate price for wheat to be added.

In the last crop year, of every 100 bushels of wheat that went on the world market, Canada shipped 35; Australia, 20; Argentina, 15; the United States 10; India eight and the Balkan countries seven. Because of that, Canada owed a duty not only to its own farmers but to all countries that a fair price was reached.

The prime minister called Liberal members to oppose the government wheat operations. He suggested their "smearing observations be directed to the people of the west" who realized they were saved from bankruptcy. Once he did, liberal members were invited to oppose the wheat operations,

taunting them to "speak up like men."

"When I listen to the sneers of the honorable gentlemen opposite I am compelled to speak up and say something in defense of our country," said Mr. Bennett.

"Let them rise and speak like men not all in their seats and sneer and whisper to each other and say nothing," he said.

The Canadian Bureau of statistics issued a report showing a drop of more than 5,000,000 bushels in exports of Canadian wheat in May to the United Kingdom compared with those of May, 1934, which officials explained was due largely to lower import demand by continental European countries.

Last May Canadian exports of wheat to the United Kingdom had a value of \$7,801,525, compared with \$14,658,501 bushels worth \$10,041,835. Officials explained great quantities of Canadian wheat consigned originally to the United Kingdom had been diverted to other countries.

"They said they thought there was little actual difference in British imports of Canadian wheat last May and May, 1934, although those figures will not be available for several days."

# What Modern Engineering Could Do In Changing The Climatic Conditions

Hints of a "made-over" world, thanks to modern invention and natural science, were given at a recent meeting of geographical experts in London.

The talk was by Leopold Amery, former Dominions Secretary of State for Great Britain, who captured his audience's imagination by setting them upon a magic carpet and whisking them to far places at will.

He stopped his flight among the great icebergs of Labrador. Here he made them look down at the narrow channel skirting the northern extremity of Newfoundland. He pictured to them what engineers there might soon do to turn the barren, treeless islands of Belle Isle, themselves, into a new place.

Independence on a five-acre patch.

Sharing with Old World growers rich rewards from the United States, which last year imported liquors and wines valued at \$40,000,000.

Four-fifths of these two potential giant regions of the world have been proven.

Experience of F. Beltram, pioneer grower of the lower mainland, shows Sunnus district alone has many areas that fill the bill just as well as, say, southern France or California. He envisaged the possibilities 22 years ago.

At present he was about 40 acres under crop in addition to one-year and two-year-old vines, on his ranch near Sardis on Sunnus Prairie, near the river at the foot of Sunnus mountain.

The grapes are excellent in quality and sell readily in Vancouver, New Westminster and other centres, and are pronounced as good as any imported from California or other giant States grape-growing districts.

Grapes average \$8 a ton, yields approximately five to eight tons an acre, and small holdings not exceeding 10 acres are advocated, Mr. Beltram claims, from years of patient experimentation.

## Growing Excellent Grapes Good As Italy's

Vineyards yielding grapes as good as any in California or even in Italy are located in British Columbia. These are being farmed by Redwood farmers cultivating 100 acres of plantings and of those in Sunnus area, include:

Villages and districts springing up in the Fraser valley of Okanagan and Similkameen.

Independence on a five-acre patch. Sharing with Old World growers rich rewards from the United States, which last year imported liquors and wines valued at \$40,000,000.

Grapes average \$8 a ton, yields approximately five to eight tons an acre, and small holdings not exceeding 10 acres are advocated, Mr. Beltram claims, from years of patient experimentation.

## Early Diagnosis Needed

**Ignorance Is The Cancer Patient's Greatest Enemy, Says Speaker**

Only one-third of cancer patients are diagnosed early enough in time to be cured. Dr. R. O. Davison, deputy minister of public health for Saskatchewan, stated in London.

The chairman of the Saskatchewan Cancer Commission, speaking before the Canadian Public Hygiene Council and the Toronto Civic League declared, "ignorance is the cancer patient's greatest enemy."

Formation of a Canadian branch of the British Empire Cancer Commission in connection with the King George V silver jubilee cancer foundation was urged.

Neglect, lack of pain, failure to take the disease seriously, inability to pay for treatment, fear, were some of the reasons given by 200 experts in cancer diagnosis for failure to be examined earlier.

Of 543 practitioners questioned, 124 had never seen a cancer case.

## Would Help Dairy Farmer

**England Thinking Of Establishing Milk Bars Through County**

Britain may soon be quenching its thirst at Milk Bars.

The idea comes from the Milk Marketing Board.

The board's vice-chairman, Ben Higgs, told farmers at Freshfield that milk bars "would enable the touring public to obtain for themselves and their children beat nutritious refreshments."

They were contemplating establishing bars in many parts of the country.

Already schools of Britain have their "bars." Walter Elliot, Minister of Agriculture, inaugurated the scheme. Some he said, "are drawing the first tankards to quench Britain's thirst and help the dairy farmer's thirst."

John Macmillan, dairy manager of the London Daily Mirror.

## Had Ready Witness

Sir John A. Macdonald was not out on a day trip, but had a ready witness. One day in the House Commons an opponent accused him of having stolen part of the political program of the other party. "Sir John has stolen the brains of the Opposition," he thundered.

Mr. John arose to a point of order. "Mr. Speaker," he complained, "the honorable member has accused me of petty larceny."

Georgia has made the pine its official state tree, and the brown thrasher its state bird.

Navajo Indians have increased in numbers from 8,000 to 45,000 since 1936.

"LAUGH, AND THE WORLD LAUGHS WITH YOU!"

**THE WORLD.** "Well done, John! You certainly do cheer a body up!" (British continues to lead the world along the road to prosperity. The Jubilee festivities put enormous additional sums into circulation, and the latest trade figures show a substantial increase in exports.)—News of the World.

## Preparing For The Future

**British Television Station To Occupy Wing Of Alexandria Palace**

The British television station will be built at Alexandria Palace it is officially announced.

The B.B.C. wants nearly the whole of the south wing, which comprises the Masonic suite, the Pillar Hall and refreshment room. E. G. Crawford, chairman of the trustees, said:

The postmaster-general stated in the House of Commons in February that steps would be taken to establish a television station in London during the latter half of this year.

Experts believe that the cost will not come into general use for some considerable time. There is no danger of listeners' ordinary sets becoming rapidly obsolete.

A scold's bride, once used to punish talkative women, was sold recently in London for \$40.

Deserts cover 24 per cent. of the earth's surface.

## U.S. Indemnity

**Canada Agrees To Pay \$350,000 In Compensation For Damage**

The United States demands that the United Kingdom pay to the United States \$350,000 in settlement of damage in the State of Washington caused by sulphur fumes due to the burning of coal in the smelter of the Consolidated Mining and Smelting Co. at Trail, B.C.

The sum would be for damage suffered prior to January 1, 1932. The convention also sets up a tribunal to decide whether any damage has been caused since that date and if so what indemnity should be allowed.

The ancient Egyptians practiced plastic surgery.

Deserts cover 24 per cent. of the earth's surface.

## The SNAPSHOT GUILD ENLARGEMENTS

**Carrier Pigeons Unreliable Their Work Of None**

Carrier pigeons have fallen from their high pedestal. In flight parties they are termed a "bust" and may well be looked upon as a remnant of the past when the Royal Mail carrier pigeons, with the Ministry of Transport's services when aerial patrols sweep over forest areas of the hinterlands.

Carefully conducted experiments last year resulted the best "homers" ever recorded. The birds could fly 24 hours will be retained. Many took much longer and their work was practically valueless. Sometimes they refused to fly or delayed a long time before taking off. Not a few died in return.

Best record was flights of 150 miles in three hours, 100 miles in two hours and thirty minutes and 60 miles in one hour and fifteen minutes. A fee will be used to report progress of fires and employed during forced aeroplane landings.

**The Thoughtless Adult**

**Usually More Careless Than Boy About Camp Fire**

It is the thoughtless adult who educate the public in the importance and technique of building and disposing of camp fires will strike a sympathetic note among many citizens. It is a good word.

The automobile has transformed the outdoor life of a camper. Governments, realising this, have built roads that tap scenic wonderlands and virgin forests. Forest service have cleared trails for the hikers. To-day as at no time before, the natural resources for recreation are open to the people's use and abuse.

The coming of summer will bring many pictures that will make better memories than anything else that doesn't add a thing to the charm of the view—a picture of a friend of the young ones at play in the sand box—a picture which their parents will be pleased to have, enlarged, as a gift. But suppose there's something incongruous—

That particular negative from the snapshot negatives from which these enlargements can be made, is a picture of a grandfather, a picture of a grandchild, a picture of a flower garden, or sister standing in front of a tree filled with beautiful spring birds.

Enlargements may be of almost any size. Any good negative, no matter how small, may be blown up to make a picture five or six times the size of the original.

Enlargements for beautiful pictures are countless at this time of year, so go forth with your camera and get them. JOHN VAN GUILDEER.

# Need For Reform Of Immigration Laws Stressed At Social Work Meeting

## Passing Of The Summer Kitchen

**The Old Time Appendage To The Average Home Is Fast Disappearing**

That blessed appendage to any home, the shed, has almost disappeared from the landscape. Little by little, the quiet bench of our childhood, its going is a loss for which nothing can compensate. The shed has its uses for all members of the family, for its privacy, with the family rate to service. It is the place where we sit through which sweet aria bawls across the spicy odors that the cook was combining at a table as large as many modern rooms; it was the place where small boys given to playing with matches supposedly went behind their screen to make their summer bath; it was the place where wood was piled high for winter, the daring climbing up the precarious footing, or hiding there in the darkness when hide and seek was played; it was the place where the smell of soapuds was kept away from the house instead of rising, to contaminate the bedrooms' ozone-and-lavender-scented air. The diffused light of the window, the heat of the past wood performed there, an ancient stove, past the delicate operation of baking, heating the great iron, as well as the water in which the clothes were washed and boiled. Not long ago we had the joy of watching the clothes boil in the tubs; there were baskets full of fresh clothes that had been dried on lines in the garden that remained from a more luxuriant time, and an ironing board and an array of pots and pans were used.

## MISS ALADDIN

—By—

Christina Whiting Partmenter  
Author of  
"One Wide River to Cross";  
"The Unknown Port," Etc.

### SYNOPSIS

Nancy Nelson is a sub-deb, a gay, free-spirited girl with a sweet tooth, with no care beyond the cliché of the good time for her coming-out party. Suddenly, in the market crash, she indulges in a wild spending spree and her family is faced with the necessity of a simpler method of living. At the same time, Nancy falls in love from an eccentric relative in Colorado, who offers the girl a home on what seems to be impossible terms.

After much consideration Columbine and Nancy and Jack arrive at Pine Ridge. Now Go On With The Story

CHAPTER V.—Continued

"But she had on silk stockings, Jack, and high-heeled shoes. They looked incongruous with all the rest of her. Well, that'll be something to write home about. I wonder if we ought to go inside. I wonder if you're still sort of nervous? I wish whoever's writing us would come and sit down with us."

"Let's stay right here, this air's so marvelous. Do you suppose they often get such days in winter? Watch out, sis!" Jack lowered his voice.

Nancy's mind eyes followed her brothers. A white-haired woman had just emerged from the station. She wore a broad-brimmed black hat that must have a centaur's head on top, and a long, belted coat. Her face, revealed a milky blouse of flannel red. Her feet were clad in stout, black, lace-bordered boots above which an inch or two of cotton stocking met the dark cloth hem. A wry smile graced her lips as she passed them hurriedly; she had an air about her. See what I mean, Jack?"

"Yeah," he admitted, "but I bet she's a whole lot more than the same. You know what they call a character. You think?"

Jack paused. The eccentric lady had turned and was approaching rapidly. "I'm looking for two young people by the name of Nelson," she said coolly.

The question was as unique as the woman; but in that moment her somewhat mannish countenance was lighted by a contagious smile. Jack actually grinned, while Nancy responded, "It looks as though you'd seen it all."

Jack nodded her answer.

"I dare say you're hungry as two bears, and so am I. Come in and eat. These Eastern trains always arrive late."

Still talking, she led them toward the station restaurant and motioned seats at the counter.

"No use in paying a dollar for a dinner when you can get a hot roast beef sandwich for ten cents. Do you like roast beef? In my opinion there's nothing better. Do you want coffee? They say it's bad for people but I've drunk it every day for

years."

Jack grimmed as he asked if she had a sandwich and got some instructions in order to keep Nancy and "that frost-bean" as far apart as possible. Knowing that something of this sort was in his mind, Nancy threw him a warning glance, and he saw that she was beside the eccentric lady whom she was beginning to like immensely: "It's queer, but I feel acquainted with you already; and do you realize we don't even know your name?"

Jack lined face brightened humorously.

The truth is, I never tell my name if I can avoid it. That's the only grade you'll get against my parents. I've always wondered if their brains weren't affected by the attitude when they inflicted such a misnomer on a helpless person. My mind, you nice young things, Columbine Nelson."

Remember that 98 out of 100 women report benefit. Let it help you too.

### HEALTH MEANS CHARM AND HAPPINESS

Sparkling eyes and smiling lips speak of health and vitality. Clear skin reflects the healthy state. The body is both happy and peaceful.

Perhaps you are not really ill yet, but if you feel that day's work is done you are too tired to enter into the good times that others are having. Try Lydia E. Pinkham's Vegetable Compound. It takes up the vegetable bath. Give your muscles more charm.

Remember that 98 out of 100 women report benefit. Let it help you too.

more than fifty years and am still able to get about." She smiled at the waitress, and not giving the young people a chance to answer, ordered: "Roast beef sandwiches, coffee, lemon meringue pie for three, please; and take your time."

Struck dumb by this breezy introduction, Jack stilled a smile and gave her his silent, understanding gaze. Their eyes met, hung heavily, then neared hook, and was a noticeable figure in her broad felt hat and scarlet middy. People looked at her, mildly amused; but there was nobility in her weatherbeaten countenance.

Lunch was quickly served, and there being no privacy at the counter, was consumed in silence save for a few questions regarding their journey. As the train pulled away Nancy and Jack sat back, both boy and girl continuing to watch the scene, regretful twinge, as if some good friend were deserting them; and as Nancy resumed her meal their companion asked: "Sorry to see the train leave you young people."

"I suppose I am," agreed the girl, and added at this unexpected insight of her mood: "You see, it makes me feel as if the last bridge behind us was burning. Everything's so different from Massachusetts, and not knowing Cousin Columbine at all I'm silly enough to be a little nervous."

The woman smiled at one of her nieces.

"You needn't be. I don't think you'll find Columbine Nelson hard to live with."

"Have you known her long?" asked Jack, hoping to secure a bit of information concerning the character of their unseen relative.

"All my life. She was born at Pine Ridge seventy-odd years ago in a covered wagon."

"I know," said Nancy. "It's one of our family stories, that and how she happened to be named."

"Is it indeed?" The woman tipped her head back, and her eyes twinkled regally. "Oh, there you are, Mark."

The lunch room was almost empty now, and as she slipped from the high stool Nancy saw a tall young fellow in a somber suit who he removed as he caught sight of her.

Jack stuck an amused glance at Nancy—a glance she had no trouble in interpreting. This is all plain as if he'd spoken: "Enter the forbidden fruit and taste the apple."

"I'm glad you accepted," he murmured.

The lunch room was almost empty now, and as she slipped from the high stool Nancy saw a tall young fellow in a somber suit who he removed as he caught sight of her.

They had turned into a street that faced the mountain, from which Nancy could hardly take her eyes.

"I'm glad you accepted," he murmured.

### CHAPTER VI

If their unconventional relative had set off a bomb and blown the old Ford touring car into a million bits, she wouldn't have created more surprise. Jack paused, one foot on the running board, and stared at her; wife, Nancy gasped: "But—but you can't be—Wife! Cousin Columbine's over seventy."

"Over seventy, I'll admit," alleged their companion, "but not so foolish that she'd be a noticeable figure in her broad felt hat and scarlet middy. People looked at her, mildly amused; but there was nobility in her weatherbeaten countenance.

"Struck dumb by this breezy introduction, Jack stilled a smile and gave her his silent, understanding gaze.

Their eyes met, hung heavily, then neared hook, and was a noticeable figure in her broad felt hat and scarlet middy. People looked at her, mildly amused; but there was nobility in her weatherbeaten countenance.

### BABY'S OWN SOAP

Enriched by genuine tones of Camomile.

Nance couldn't restrain a giggle. Jack laughed again. "Columbine County has been a bit of a place since the war," he remarked. "If you expect me, or anybody in Pine Ridge to contradict you, young man, you'll be disappointed. In my day it wasn't considered modest to fish for compliments. The great thing is, boy, why don't you get along?"

"I'm crushed to move," he told her, and proceeded to start the engine as quietly as he could. "I'm afraid I'll never get over and get married again."

Eager to start his legs, Jack stepped off the old lady and remarked critically: "Jack's thin, isn't he? Grown too fast, most likely, and been cooped up in school. A boy's got to move around for his health."

"I'm glad to see that you're still that way," said Nancy. "There's only one other in the village, and that's in a summer cottage belonging to a rich oil man from Oklahoma. I went to the extravagance of buying a new suit, and the next day was sick with a cold. I guess it was the change of climate."

"I'm glad to see that you're still that way," said Nancy.

"I'm glad to see that you're still that way," said Nancy.

### Keep Record Of Graduates

Careers of Alberta's Commercial Students Followed Up

Business men of Alberta, who seek university graduates for their offices or fail to obtain them by alimony of the University of Alberta, are invited to the direction of Dr. W. C. Wallace, president, leading firms will be given information about the qualifications of graduates seeking a commercial course in life.

Investigation into careers of the university's school of commerce graduates resulted in reports on 97 of the 127 men and women graduates from the school since its inception in 1923. They are employed in Alberta, Toronto, Vancouver, the United States and in Honolulu.

Some have taken up teaching; others engaged in secretarial work, in business and in general commercial fields. One graduate took farming.

The survey showed that only seven of the 127 graduates had married since leaving the commercial school.

### Vimy Pilgrimage

Lady Halg To Attend Vimy  
Memorial Unveiling

That Lady Halg will be present at Canada's unveiling of the Vimy Ridge Memorial on June 24 was announced to-day by Brigadier General Alex Ross, Dominion president of the Canadian Legion.

"I am so grateful to you for your kind letter," he replied, "and the research you have done on the Vimy Ridge." He will be a wonderful gathering to unveil that beautiful memorial, and I shall feel much honored that the members of the Canadian Legion, through the Vimy Empire Service League, have allowed me to accompany them."

Canada's War Cemetery, registration to date is now over a thousand and expected to reach twenty times that figure by the end of the year. The Vimy Ridge Memorial will be the 100th in the series of memorials to the memory of Canada's War Memorial at Vimy Ridge in July of next year in the presence of representatives of the British and European as well as Canadian and United States governments.

### Rewarded With Fortune

Lonely Bachelor Leaves Little Nurse Home And Money

Escaped and looked after an old bachelor when he died, the 15-year-old daughter of a family at Qualicum Beach, B.C., has now a fortune of over \$20,000.

For five months Benjamin Muhler had been sick. Every day the girl would go to his bedchamber and look after his needs.

A short time before his death the bachelor told his little nurse he would give her a sum of money if she would care for him when he died.

When the old man died, the girl buried the will, was rid of his estate, which included the house and grounds and \$20,000, was left to his little nurse, who is the oldest of five children.

### A BARBER WHO HAD RHEUMATISM

Tells How He Carried On

A man who had been a martyr to rheumatism for some ten years

"I have been a martyr to rheumatism for some ten years. For five years I was so affected that it was impossible to carry on my business. I may say, and a barber by trade. After trying many remedies, I was finally advised to try Kruschen salts. I am pleased to say that after having Kruschen salts for some twelve months, I am now free from aches and pains. I have not been to a doctor for a year and a half."

Two boxes of Kruschen Salts are the most effective salts of urine known to medical science. They contain the sharp edges of the painful crystals, thus causing them to break out in a harmless manner. Other ingredients in these salts have a stimulating effect upon the kidneys, and assist them to expel the natural wastes.

Teach me your mood O patient stars,  
Who climb each night the ancient sky.  
Leaving space no shade, no  
No travel, no fear, no die.

Look up to the heavens and the quietness of the stars would seem to reproach you. "We are safe up here" they seem to say, "we shine fearless and confident, for the God who gave the primrose to man leaves to hide the thorn in the briar, the rose in the briar, the lily in the mud, the sun in the clouds, the moon in the darkness. We cannot fall out of His safety. Lift up your eyes on high and behold: who have helped these names? Who calmed the storm by number? He calleth them all by name. By the greatness of His might, for He is strong in power, not one faileth."

### Success In Business

Depends Very largely On How Hard One Works

There is altogether too much nonsense talked about success. The world is full of them who have come to believe in a business they have operated but who have never been able to make a success of one themselves. To conduct a business successfully three things are essential: money, ability, and a strenuous capacity for hard work. Ability is the last of the three which contributes the greatest part to the success of a business, it is a wise combination of the three which provides a means for thousands of thousands of men and women all over Canada.

A gooseberry bush bearing a variety called "Fever" was among the varieties exhibited at the Royal Oxfordshire Horticultural Society's Show.

### NEW PATTERNS ON NEEDLECRAFT NOW AVAILABLE

O another page you will see the first of the Alice Brooks Needlecraft Patterns. They will include everything about knitting. Hot press patterns, etc., as time goes on.

### Wood Pulp to Replace Cotton

**London, July 6.—The Daily Express today quotes Dr. E. E. Armstrong, one of Britain's leading industrial chemists, that cotton will be replaced by a fabric made from wood pulp.**

**Scientists have now discovered a way whereby staple fibre from wood pulp can be made into fabric on machinery now in use in the cotton mills, the Express quoted Dr. Armstrong.**

**New factories to supply this material are already being built in Lancashire.**

### Aliens Not To Vote In Village or Town Elections

**Calgary, June 28.—Aliens should not be allowed to vote in village or town elections despite the general amendment of the Union of Alberta Municipalities decided today. A resolution affirming this stand was given almost unanimous adoption.**

**In some sections of the province, delegates declared, aliens could outvote the citizens and taxpayers.**

**Other resolutions adopted urged one year's continuous residence should apply to Alberta statutes governing old age pensions, mothers' allowances; hospitalisation and other relief aids; that taxes for social services should be removed from real estate and raised by taxes borne by all citizens. The convention also approved a motion that there be an amendment to the Town and**

**Village Act to permit such municipalities to tax mineral rights. In default of the taxpayer, mineral rights would revert to the municipality along with the land.**

### To Prevent Election Frauds

**Ottawa, July 6.—Over protest from Liberals, the House of Commons today substituted an affidavit for the old oath used by deputy returning officers in challenging voters on election day.**

**It was aimed at telegraphers, impersonators and other fraudulent voters.**

**Liberals claimed the affidavit could be used to plug a polling booth at the close of day.**

**They also said it would frighten honest voters who disliked signing their names to documents.**

**On the other hand they claimed it would not stop impersonating.**

### Pacifier

**It is rather ridiculous to call the irritable, irritating and ready-to-fight person a pacifist. It is equally ridiculous to call the thing which is stuck into so many babies' mouths by such names as "pacifier," "comfort" and "soother."**

**The so-called pacifier really**

**irritates. Certainly the child cries for it, just as he will cry for many other undesirable things, such as sharp scissors. The baby is not to blame, but someone else is. No child ever cried for his "pacifier" unless someone had started him in the bad habit of wanting to have something in his mouth all the time.**

**If you doubt that the "pacifier" is really irritating, ask any man how long he can suck at a dry pipe without causing nausea. The use of the "pacifier" is nothing more or less than a bad habit as far as the baby is concerned.**

**It is a bad habit for many reasons. First of all it is dangerous. Why? Because it is impossible to keep the "pacifier" scrupulously clean, and certainly anything which does not come up to that standard of cleanliness has no place in a baby's mouth. The "pacifier" must, because of the way it becomes soiled, often carry disease germs into the child's adenoids, and it causes a con-**

**Besides being a filthy article, the use of the "pacifier" spoils the natural arch of the mouth by causing a protrusion of the upper jaw, which leads to irregular and protruding teeth. Sucking at a pacifier promotes**

**stant flow of saliva which keeps the baby drooling, leading to a disturbance of the digestion.**

**There is not one thing to be said in favor of this bad habit. Take all other bad habits, the way to deal with it is to never allow it to start. Once the bad habits are formed, they must be corrected. If your children, who spend his days and nights in his mouth, and when he is awake, his mouth should be used to receive food and drink only.**

### We Quote NEW... LOW Prices on Massey-Harris Combines

**That is now within the buying range of every farmer. The Combine is the cheapest way of Harvesting. Come in and let's talk it over. You can now buy a New Combine for Less than a Thousand Dollars.**

**SECOND HAND Ones at correspondingly Low Prices. Harvest the Combine way: Once over and it's All Over.**

**With Donald Cook, Peggy Shannon, Allan Dinehart and Dudley Digges**

**The cost of living, which reached its peak in 1920, has declined; but on the 1913 basis it is still much higher than the price of gasoline. In 1934 the cost of living was 20.7 per cent. higher but the price of gasoline was 28.4 per cent. lower than in 1913. The data for this graph are based on figures published by the Dominion Bureau of Statistics.**

### LIVING COSTS MORE BUT GASOLINE COSTS LESS

**THE cost of living in Canada in 1934 was approximately 21 per cent. higher and the price of gasoline 28 per cent. lower than in 1913. The price of gasoline never rose to as high a peak as did the cost of living. Since 1920 gasoline prices have declined almost continuously to the present low level.**

**Imperial Oil has always sought for economical ways of doing business and has always passed on to the consumer the benefits of such economies. Imperial Oil operates on a very small profit and in 1934 earned an average of slightly more than one-half of one cent per gallon on gasoline.**

**Not only is gasoline cheaper than ever—it is better than ever. Imperial Oil research laboratories played a leading part in developing fuels for modern motors. Imperial gasoline of 1935 is a far better gasoline than that of 1913 yet it sells at a price considerably lower.**
